ThinkAgile MX as a Service

ThinkAgile MXaaS

Lenovo

What's stopping you from modernising your business? Absolutely nothing!

Pay monthly for a turnkey, best-fit ThinkAgile MX HCI solution with everything you need - hardware, software, and Premier Support for both - deployed for you by Lenovo.

Starting at just €549/month

Leading hybrid technology

Run any workload on a hybrid, hyperconverged infrastructure with **Azure Stack HCI.**

You always have the latest security and feature updates, plus proven performance.

Ultimate simplicity

- **Make IT costs low and predictable**
  Pay one flat monthly fee. Improve cash flow.

- **Easily choose a right-sized solution**
  Entry, Mid-Sized and High Capacity options fit almost any use case.

- **Scale flexibly**
  Easily increase capacity as your needs grow.

- **Avoid long-term commitment**
  12-month minimum term. Optimise value with a 24-36 month agreement.

Sustainable and economical

ThinkAgile MX as a Service solutions include Lenovo Asset Recovery Services, providing end-to-end sustainability that helps you:

- **Meet environmental goals** with certified processing for end-of-life hardware

- **Offset the cost** of your next IT refresh with return value for re-marketable assets

ThinkAgile MX as a Service delivers simple, powerful, pay-as-you-go infrastructure.

ThinkAgile MXaaS

Lenovo

Improving cash flow. Modernising IT with hybrid cloud and hyperconverged infrastructure (HCI). Simplifying IT operations. If your business is facing any of these challenges, Lenovo ThinkAgile MX as a Service (MXaaS) can help you solve them with:

- **Cloud-like economics on premises** – Pay one affordable monthly bill for a turnkey data centre and edge computing solution.

- **Familiar hybrid cloud HCI** – Deploy and run Windows and Linux VMs in your data centre or at the edge. And extend to the cloud with Microsoft Azure services.

- **A single point of premium support** – For all of your solution hardware and software, reducing IT management burden.

- **Software license savings** – Windows Server Datacenter Edition, which provides unlimited Windows Server containers, is included.

With the leading features of Azure Stack HCI, the #1-rated reliability of Lenovo servers, and the financial agility of MXaaS, you can meet all of your needs in one solution.

Choose from three flexible options

Edge	Robo	Data centre
Run **smaller** workloads, including VDI, at remote office and edge computing locations.	Run **medium** to enterprise-scale applications and workloads on premises to meet latency requirements.	Run **larger**-scale workloads and access high-capacity, high performance storage to work with growing data sets.
6 virtual machines* **1.5TB storage** **Self-deployment** **Lenovo Enterprise Support**	**12 virtual machines*** **3TB storage** **Deployed for you** **Lenovo Enterprise Support**	**45 virtual machines*** **5.7 TB storage** **Deployed for you** **Lenovo Enterprise Support**

Which option fits your business?
